

*Product Specification :*  
*Label Deactivator DAV-200*

*8.2MHz Label Deactivator DAV-200*

*Our Deactivator is used to deactivate EAS Labels at the point-of-sale, It can also detect non-deactivatable labels or hard tags. The effective deactivation height of the DAV-200 is up to 30 cm (12 inches). This, in combination with its deactivation speed and the wide variety of antennas available, makes the DAV-200 suitable for all applications (eg. Checkout, Retail).*

*Deactivator*

Electrical Specifications	Antenna
Dimension(W/O Connectors)	62*42.5*204 mm
Weight	262g(9.2 oz)

Electrical Specifications	Frequency range
Frequency Range	7.6-8.8 MHZ
Pulse Time	10ms
Pulse Repeat Factor	-200/Second(free running)
Synchronization	yes
Power Consumption	12 VDc/200 mA
Deactivation Height	up to 30cm(12 inches)
Buzzer, integrated	yes
Buzzer, external	Optional

*AC/DC Adaptor*

Mechanical Specifications	Electronics
Dimension	79*52*45 mm (3.1*2.0*1.8 inches)
Power Plug (multi-national)	EU/UK/US/AA

Electrical Specifications	Electronics
Input Voltage	85-264VAC 47-63 HZ
Output Voltage	12 VDC / 800 mA

Options	Part Numbers
Deactivation Pad 260*260 mm	DAP-100 Deactivator Pad
External Buzzer with cable	BIB-101 External Buzzer
